

IMPACT Toolkit™ Why Lean RCM? 1-hr Webinar

Session plan:

A brief introduction to EMS Cognito

Understand the considerable pedigree of Reliability Centred Maintenance and the difference it has made.

A brief overview of the main concepts and principles of RCM.

Explore why classic RCM has failed to impact wider industry and how this can be overcome through application of IMPACT Toolkit™ Lean RCM, which has been successful for over 17 years.

At the end of the online seminar there will be a brief Question and Answer session.

Attendees:

This is a free web based teaching session which is applicable to anyone who has an interest in learning more about this World Class asset care approach.

Particularly relevant to anyone in manufacturing, processing, or utilities with an interest in tackling reliability issues cost effectively, and proactively managing their assets.

Benefits of a Lean RCM strategy:

- Increased productivity
- A reduction in maintenance time & costs
- Improved safety & quality performance
- Increased equipment availability
- A better organised and structured work environment

On-site training

If you have a team of 5 people or more we can train on-site. You can choose to have this programme, also offered in our open course schedule, or we can design a course to meet the requirements of your particular site. We will discuss your challenges and provide advice on the best course of action if you contact us to enquire.
